

GreenSafe™ Cleaners

Goal

Green-Safe-Solutions creates, manufactures, supplies and services plant based, non-hazardous products for all cleaning.

Nanotech

We apply proprietary nanotechnology to turbocharge the performance of all-natural processed plant and oil seed extracts known for centuries to be effective cleaners. Our boosted Cleaner and Deep Cleaner does a better job at a lower cost than the harsh chemicals that are physical, health and environmental hazards.

Cleaner

For smaller applications spray generously, or sponge on. Allow for penetration time, then wipe or rinse way dirt, grime, or grease.

Deep Cleaner

Formulated for industrial and larger scale cleaning jobs. Deep Cleaner will replace harsh chemicals for all industrial scale cleaning using floor scrubbers, pressure washers and high-capacity cleaning systems used for crops and parts washing.

GreenSafe™ Cleaners

Cleaner and Deep Cleaner

Our cleaners are the result of a centuries-old sustainable hygienic cleaning system turbocharged by the latest nanotechnology.

Nano Technology

The emerging science of nano technology supercharges our plant chemicals mixture so it can replace every hazardous chemical at home and in workplaces. Plant based ingredients are combined at a proprietary temperature and sequence to convert them into nano sized colloidal micelles. (One nanometer is one billionth of a meter) Figure 1 shows how GreenSafe's mixtures of trillions of these tiny particles quickly penetrate and dissolve dirt, fats, grime, grease, lipids, oils, microorganisms, and soils giving you exceptional hygienic conditions. This is accomplished with no phosphates, parabens, sodium lauryl sulfonates, triclosan, dioxane or artificial fragrances and colors. Cleaners reach eggs and spores in the smallest crevices to break the cycle of infestation from cross contamination. Learn more at tinyurl.com/lxwloc6q "8 Hidden Toxins: What's Lurking in Your Cleaning Products?"

Application

Ingredients are combined to offer working solutions for both every day Cleaner and industrial strength Deep Cleaner. Deep Cleaner replaces all harsh chemical industrial cleaners for hand, floor scrubber, and pressure washer use. Each concentrate is mixed with tap water at 3-oz. per quart. Add concentrate to a mostly filled container for mixing without foaming. Spray, brush, or soak areas to be cleaned. For heavily fouled surfaces and pots, wet with hot water, spray generously, allow ten minutes of dwell time, and then brush and rinse well. Warm or hot water works fastest. "dwell time" is time needed to penetrate, dislodge, and release deposits. Fresh deposits clean up easily. Dried, hardened deposits need more dwell time. Spray generously, or sponge on.

Storage and Handling

Cleaner/Deep Cleaner are non-hazardous, odor free, 100% biodegradable, 9.2 pH, hypoallergenic plant based chemical blend for which personal protective equipment is not required, containers can be reused, no special disposal is required, spills can be washed away with no concern about the environment. It is stored away from temperature extremes for a shelf life of up to three years. Mix by filling container with ½ of water volume needed, add concentrate to the water then complete filling.

Replace or Reduce Harsh Chemicals

Learn how our cleaners deliver the same or better performance without physical, chemical, and environmental hazards.

Figure 2 - CDC - COVID-19 - Clean and Disinfect

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention

The CDC guidance (tinyurl.com/3hq6gxdg) advises disinfecting frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks. If surfaces are dirty, clean them. Use detergent or soap and water (3-oz. - 6-tbsp of GreenSafe™ All-Purpose Cleaner in one quart of water fills this requirement) prior to disinfection. Then, use any EPA-registered household disinfectant. Use this link for the list: tinyurl.com/52q7b6qc Select an organic alcohol to avoid any use of harsh synthetic chemicals.

Table: Harmful Microorganism Control

- o Escherichia coli - MIC 10%
- o Salmonella choleraesuis (aka Salmonella enterica) - MIC 5%
- o Staphylococcus aureus - MIC 20%
- o Streptococcus faecalis - MIC 40%
- o Pseudomonas aeruginosa - MC 10%
- o Trichophyton mentagrophytes - MC 20%

Notes: MIC - The lowest concentrating inhibiting microbial growth. Source: SGS Certified Lab - SGS US Testing Company Procedure MIC/MICGEN.025

Two MA medical cannabis dispensaries shuttered after failed pesticide test

Massachusetts health regulators temporarily closed two medical marijuana dispensaries after a test came up positive for a pesticide.

The dispensaries – which are owned by Healthy Pharms and are in Cambridge and Georgetown – notified state officials of the test results and were then told they would have to cease retail sales “until further notice,” The Boston Globe reported.

A sample batch was found to have bifenthrin, “a pesticide commonly used in food products” but which is prohibited by the state for use in cannabis grows, the Globe reported.

Healthy Pharms said none of the contaminated cannabis was sold to patients, and the company’s attorney told the Globe that no marijuana plants were sprayed with bifenthrin.

According to the attorney, a room at the cultivation facility became contaminated after employees used an off-the-shelf product to sanitize the room before moving plants back in.

Some of the company’s plants then became contaminated with residual amounts of the pesticide, the attorney said.

“This is the department following the regulations to a T, and Healthy Pharms is doing their best to go along with that,” the attorney told the Globe.

Massachusetts MMJ companies have been under intense scrutiny by state regulators for years.

Cleaners

Commercial and Home

Greenhouse: Manger: "I think the Cleaner will be the most successful company product. There's nothing like it out there. Every day, the first thing I do when I get to the greenhouse is spent nearly an hour replacing all the plugged emitters. We must use new ones plus new pots to start each cycle. The cleaners that work on them are the kind that put us in risk of contaminating our products. Here in Oregon, if State required tests show contamination both the harvest and all the other greenhouse plants must be destroyed. Then the greenhouse must pass a state inspection before growing can start again, I left the last bunch of plugged emitters in a pail with diluted cleaner overnight. The next day I was able to reuse them. And now I can recycle all of my pots saving the cost of new ones without worrying about contamination."

Fertigation System: John H. Grove Manager in Florida agreed to a GreenSafe Plant Amendment and Foliar Spray evaluation on a 25-acre section of his orchard. Our baseline survey showed more than a quarter of the fertigation system sprays were plugged. Plant Amendment is applied at one ounce per 300-gallons of fertilizer water mixture. After the first month the farm manager reported all the sprays were working.

Hemp Processing: Jason: "The All-Natural Cleaner works great as the cleaner for trimming machines and trimming tools. We can stop using rubbing alcohol that is both a fire hazard and requires each worker have full protective clothing, gloves, face shields and respirators.

Home: Denver Homeowner, Christine: "Compared to all the other cleaning products that I have used, All-Purpose Cleaner cleans better than anything I have ever tried. I have long used Mrs. Myer's cleaners in our house and recently realized that Myer's cleaners are NOT SAFE!! They carry many toxic chemicals like Methylhydrojasmonate; 2,6-Dimethyl-7, and Sodium Laureth Sulfate (SLES) to name a few. After learning this I will NEVER go back to another cleaner. This cleaner contains absolutely no chemicals or toxins and cleans much better than anything me and my family have ever used. We absolutely love this cleaner and all that it does while knowing we are not using chemicals that could potentially harm us and the environment. We highly

recommend this cleaner to anyone that loves a clean house without the use of chemicals.

Home: Glenview IL: Samantha: "I purchased this all-natural cleaner after using a different cleaner that I have used for years. My husband and I love the fact that this cleaner is free from all toxins, chemicals, and carcinogens. We love the fact that we can use this product around the pets and two young children ages 5 and 7 that we have. It is a pleasure to clean the bathroom and shower now because it easily removes all the disgusting dirt and oil that forms in and on the side of the bathtub and shower. After showering, I spray this in the shower and on the glass and simply walk away. Also, this is the most amazing pre-spot cleaner for laundry. We simply spray on any stain that we may have on clothes and the stain is completely out!

Home: Colorado Springs CO: Robert: I have to say, I am thrilled with the results of this product! It's easy to use, safe for the environment, leaves no harsh odor behind and best of all, made in the USA!

Home: Colorado Springs CO: Kitty: After many failed attempts, using various (toxic) products to clean the scum from the shower door I finally found one that delivers, I sprayed (no odor) 'Ultimate Green Solution' on, waited a few minutes, and then used a plastic scrubby to remove the stains-WOW-like magic-it was new again- stains gone! I also used this amazing product on mirrors and glass, once again- WOW-no smudges! I sprayed it on, waited a minute, wiped it off-Sparkling clean! I can't wait to see what it does on the driveway oil stains and all the other cleaning projects I have in store. It takes the drudgery out of cleaning- you instantly see the results!

Home: Castle Rock CO: Zach: I purchased this product because I was looking for something that I could clean my entire house with. This cleaner is great because it does everything from cleaning your fruits and vegetables, to cleaning oil stains that I have in my garage floor. I have never seen a product clean as good as this one ever! I love the fact that there is also no smell to this. If anything, it smells like fresh rainwater after you are done cleaning. Very awesome cleaner in my opinion.

Home: Castle Rock CO: Misty: I am addicted to this cleaner. I use it on my stainless-steel appliances, mirrors, granite, to toilets. This is the absolute best glass cleaner out there that I have used because it leaves absolutely no streaks! It is so nice to use a product that cleans as well as this one does without the smell of dangerous chemicals and toxins. I highly recommend this to anyone that cares about the health and safety of their family.

Home: Pueblo CO: Misty: "Well, we used this product this morning because our puppy got sick and had diarrhea. He went to the bathroom all over our \$500-dollar white rug that we have in the house. After spraying this cleaner all over the area and let it sit for about 3 minutes, we cleaned up the entire mess with absolutely no stain left on the white rug!! To be honest, we did not think this cleaner would work that amazingly and get the brown fecal matter off the carpet as well as clean it. I can only thank this cleaner for making our lives better. Also works fantastic on grout, toilets, glass shower doors, or really anything else in the house to be honest. We also use this as a shampoo and are blown away at the results. What an amazing price also for a cleaner that does all of this. Save your money on all those other cleaners because this is the only one you will ever need.

Home: Fort Collins CO: Kendra: Purchased this at the ACE hardware store in Colorado Springs. Used it the next day to clean the grout in our kitchen that was dirty. It worked like a charm!! Really great stuff!

Home: Pueblo CO: The Bryant Family: Love this cleaner. Only complaint is that I now need more!! Wow, this cleaner works on anything. Used on mirrors, toilets, floors, shower, tub, and windows. Gets all dirt and grease up so easily and with no chemicals. We recommend this cleaner to everyone we know now.

Home: Washington: I bought a house a few years ago that had one of those 3-foot oil stains you see on the garage floor if you have a very old car. I sprayed full-strength cleaner on the stain. I left it for a day. Then I dumped a tea pot full of boiling water on it. I left for another day. Then, I used a scrub brush on the entire stain. I hosed it down. When the floor dried there was no stain.

Home - Farm - Orchard: Cleaning, Orchard, Row, Field Crops and Poultry: Brian T. from Flandreau, S.D. and his family are 650-year farmers in a Hutterian Brethren community

with 130 families. He has been applying our products for over 6 years. Brian purchases all our products, Plant Amendment, Foliar Spray and All-Purpose Cleaner. He absolutely loves them all. He has healthier fruit trees, vegetables, corn, soybean, alfalfa. And, he has healthier turkeys, chickens, pigs, cattle, and ducks. Brian says they are getting as much as 30 to 100% increase in the field crops, garden produce and fruit crops. He purchases our cleaner concentrate in 250-gallon containers preparing dilutions to replace all farm, household, and personal care cleaning products. Brian told me one year he had a 300% increase in garlic, and he gives credit to clean feed for the best 84 thousand turkeys his Colony ever raised. And he is absolutely blown away about how our nutrient enhancers work with his fertilizers.

GREENSAFE™ CLEANER APPLICATION INSTRUCTIONS

BATH & TIRE CLEANER

BATHTUB MAT: Spray both sides. Dwell time: 45 seconds. Agitate with stiff brush or sponge. Rinse. Allow more dwell if it is heavily soiled.

FLOORS:

Tile: Sweep first. Spray generously. Use a soft brush to agitate into the grout. Wipe with a damp cloth. Rinse well with clear water to avoid slippery floors.

Vinyl: Spray, then use a terry cloth to agitate. Dry with a soft cloth.

Marble: Spray generously. Wipe with a wet cloth. Then, buff to a shine.

MEDICINE CABINET: Unload first. Spray and wipe with damp cloth or sponge.

SEWER DRAIN: Regular use keeps drains free of soap and grime build-up. Sorry. It will not dissolve or push out hair.

SHOWER DOOR: Spray. Agitate with a wet rag or brush. Rinse, then wipe dry.

SINK & FAUCETS: Spray. Dwell time: 30 seconds. Wipe with a damp cloth or sponge. If heavily soiled or crusted, agitate with a brush. Rinse. Wipe faucets with a dry cloth for a sparkle.

SPA: Add one cup per 100 gallons of water. Run the jets until the spa is clear.

SHAMPOO & SHOWERS: In the shower, use it as any other shampoo or liquid soap. (It is low suds, yet effective.)

SHAVING: To soften whiskers, squirt it into your hands and apply directly to the whiskers. It is a remarkable beard softener. Apply normal lather before shaving. After-shave lotion is not needed. Ladies use it for shaving their legs. Acne victims use it for washing their faces.

TOILET: Spray seat, bowl, and sides. Dwell time: 60 seconds. Scrub with a wet rag or brush.

TUB/SHOWER: Wet sides of shower and tub. Spray on all surfaces. Dwell time: 60 seconds. Scrub with a brush or rag. Rinse well to avoid slippery surface and wipe the clean walls dry.

AS A DEAD BUG REMOVER

BUG STAINS: On Auto Exterior: Spray with water, then with Purely Green. Dwell time: 2 minutes. Dried bugs will melt. Wipe them away with a wet cloth. NOTE. Do not leave Purely Green on too long. It may dull some finishes.

INSECTS: Spray Purely Green Bio-Pesticide directly on insects.

CHROME: To remove dead bugs, spray generously and let dwell 2 minutes. Wipe with a wet sponge or rag.

TAR: Tar is difficult. Soak the tar with hot water, then spray with WOW! and let dwell for 5 minutes. Wipe with a hot wet rag or rinse with the hose.

CARPET, CURTAINS, UPHOLSTERY & FLOORS CARPETS:

AUTOMOBILE CARPETS: Spray generously. Dwell time: 1 minute. Then pat up the stain with a wet rag. NOTE: Do not rub stains. Rubbing spreads stains onto other fibers.

HOUSEHOLD CARPETS & RUGS: Spot and stain removal. Spray generously. Dwell time: 1 or 2 minutes. Pat up (do not rub) the stain with a clean wet cloth. Then dry with a dry cloth or vacuum. NOTE: Remove ALL residues to prevent further staining.

PAINT: To remove fresh paint from the carpet, spray generously with WOW! Allow 5 minutes dwell time. Pat do not rub, with a clean damp cloth until the paint is removed. A second application may be needed.

SHAMPOO: (or extraction method) Pre-spray heavy traffic areas. Then add one ounce or cleaner per 3 gallons of water and use the machine per directions.

CURTAINS: Regular washable curtains: Wash normally. Non-washables. First test on a hem to make sure your curtains will not water stain. (If they show a water stain, do not wash!) Mist Purely Green on a slightly moist cloth. Gently rub your spots. Wipe with a moist cloth. Let dry. Iron as needed.

FLOORS: Use 2 ounces of Purely Green per gallon of warm water, or spray on floor and buff with a damp mop or damp cloth.

UPHOLSTERY: Lightly mist a cloth with Purely Green. Gently PAT the area to be cleaned. If dirty or greasy, lightly scrub with a dampened brush or terry cloth. Wipe with a damp cloth.

VINYL FLOORS: Spray generously. Wipe with a damp mop.

FRUITS, VEGETABLES & FLOWERS

FRUITS AND VEGETABLES: To remove insecticides, grime, bugs, wax, and crud, rinse, then spray or soak with Purely Green. For apples, carrots, or other hard produce, rub briskly by hand or with a small scrub brush. Rinse under running water. For grapes, rinse, spray with Purely Green. Let it sit up to a minute. Rinse well. You will be amazed at the amount of stuff that is removed!

IMPORTANT – VEGGIE WASH: When farmers spray insecticides on fruits and vegetables, they must use oil-based poisons, or the rain will wash them away. Ordinary “veggie” washes cannot dissolve oil, so you and your family are ingesting pesticides.

FLOWERS: To prolong the life of cut flowers, add a ½ teaspoon of Purely Green to the water in a vase.

FOR GLASS SURFACES: Dilute Purely Green with a nose dropper full per quart of water.

COMPUTERS: For the screen, keyboard, monitor, etc., spray it on a soft cloth and wipe clean. Buff dry with a soft cloth.

EYEGASSES: Mist it on lightly then wipe dry with a soft cloth. Buff with a second dry cloth. Dust and smudges are repelled.

FIREPLACE GLASS DOORS: To remove the oily buildup from glass doors, spray while doors are warm. Wipe with a damp cloth.

GLASS: Spray lightly. Wipe with a dry cloth, then buff with a second dry cloth.

JEWELRY: Spray lightly and buff with a soft cloth or paper towel. Caution. The glue in some inexpensive jewelry may loosen if allowed to soak too long.

MIRRORS: Spray lightly. Dry with a soft cloth or paper towel. Buff with a second soft dry cloth.

PICTURES: Spray lightly then dry with a clean cloth. Wipe the entire picture. Buff the glass with a second cloth.

SKI GOGGLES: Clean your ski goggles with to prevent fogging and snow build up.

WINDOWS: Clean windows by lightly spraying with highly diluted Purely Green. Dry with a soft cloth. Buff with a second soft cloth.

HAND SOAP

HAND WASH

The Safety Data Sheet (SDS) of a popular hand soap warns to avoid skin contact by using rubber gloves. (It contains Triclosan.)

Purely Green carries no such warnings. It contains no Triclosan. Keep a bottle everywhere you wash your hands. Simply pump a few squirts into your hands, lather, and rinse.

Suggestion: Carry a small bottle in your purse to spray shopping carts, doorknobs, and toilet seats before touching.

HOUSEHOLD & MISCELLANEOUS USES

BABY BOTTLES: Spray a generous amount into the bottle and rinse with hot water.

BOOKS: Spray a soft cloth and wipe books. It will clean them and delay future dust build-up.

CAULKING, DRIED: Spray on the area to be cleaned. Allow substantial dwell time. Wipe with a damp terry cloth.

CLOSETS: To clean shelves, walls and floors of closets, wipe shelves, walls, and floors with a cloth dampened with Purely Green.

CRAYON: For hard surfaces like mica cabinets, spray the mark and let it dwell until the mark becomes soft. Remove with a damp terry cloth. Painted walls or wallboard. Test your paint durability on a hidden area first. If no paint is removed, spray Purely Green on a damp cloth and rub gently. If you rub too hard, you may rub through the paint.

DENTURES: Soak a few minutes. Rinse well.

DIAPER PAILS: Spray diaper pails generously.

DOORS AND DOOR FRAMES: To clean fingerprints from doors and frames, spray onto a clean, damp terry cloth, or spray directly onto the surface. Wipe with a damp cloth or sponge. To remove heavy dirt and grime, allow additional dwell time. Wipe with a damp cloth or sponge.

FANS, CEILING: Spray and wipe the blades with a clean cloth. Spray a damp cloth and clean the motor housing. Wipe it with a second damp cloth. Clean the light fixture with a cloth that has been lightly sprayed with Purely Green. Buff with a dry cloth.

FURNITURE (PLASTIC): Spray on, allow dwell time then remove with a wet terry towel. Vinyl. Spray on, allow dwell time then remove with a wet terry towel.

GOLF CLUBS: Spray, then wipe with a clean cloth. Apply to the polished surfaces and buff with a soft, clean cloth.

GUM REMOVAL (from hair): Soak it with Purely Green, then gently massage into gum until it begins to break apart. Rinse and comb out. From carpet: Soak it, then gently massage into gum until it begins to break apart and remove with a stiff brush.

HEEL MARKS AND SCUFFS: Spray the area and allow a few minutes dwell time. Rub with a terry cloth. Repeat, if necessary.

INK STAINS (ballpoint): Wet the stain with warm water then spray. Work into the stain. Pat it up with a dry cloth. If stubborn, spray again. If the material is washable, wash normally. If non-washable, blot off with a damp cloth. Purely Green works on organic ink. It does not work on inorganic substances.

LEATHER: For shoes, boots, purses, leather coats, leather seat covers, etc., spray on and wipe off with a soft cloth.

PERMANENT MARKER (Organic): On hard surfaces spray and agitate with a stiff brush or damp terry cloth. Allow dwell time, and then wipe it off. On carpet or fabric, spray Purely Green on a damp cloth, then gently work pat the spot until it is lifted out. Repeat, as necessary.

PESTICIDE REMOVAL: Spray or soak liberally with Purely Green. Rub briskly. Rinse well. Your food will be "Pesticide Free."

PLANTS (SILK): Take plants outside. Rinse with water. Spray with Purely Green. Let it dwell for one minute. Rinse well.

RUST: This challenge requires "elbow grease." Wet area with hot water and spray generously. Allow 10 minutes dwell time. Scrub with a stiff brush, Tuffly or fine steel wool. Reapply as needed. Rinse well.

SCREENS, (Window): Rinse with water. Mix 1/2 cup to 2 gallons water. Dip a soft brush into solution and brush on screen. Rinse.

SPA: For a fun bubble bath while cleaning your spa water and pump, add a couple of tablespoons full per 100 gallons of water.

STUCCO: Wet the area to be cleaned with warm water. Spray thoroughly. Brush with a stiff brush or broom. Rinse.

SWIMMING POOLS: Remove dirt around the pool by spraying directly or adding one cup per gallon of water into a bucket and scrubbing the area.

TOYS: Clean by spraying generously. Allow 5 minutes dwell time. Wipe with a damp cloth. Or wash in the sink in a mixture of one cup per gallon of warm water. Rinse and dry.

WALLS: Spray Purely Green on a damp cloth and wash walls.

WALLPAPER: Caution. Some soft paper wallpaper can be dissolved by Purely Green. Vinyl paper is safe. Spray lightly, then wipe gently with a damp terry cloth. Non-vinyl wallpaper. Test on an out of way place to see if the paper will damage. If it will clean without damage, spray Purely Green on a soft, damp cloth. Blot; do not rub, gently into the stain. Blot with a second slightly damp cloth. Dry it with a soft dry cloth or hair dryer.

DISHES & FOOD CLEANUP

BURNED FOOD. For burned food, add a tablespoon of WOW! plus hot water. Let it dwell 20 minutes. The burnt food and smell will rinse away.

DISH LIQUID (Hand) Because Purely Green cleans with fewer suds, (no phosphates) you may ask whether your dishes are clean. They are. If you doubt it, run your finger over a cleaned dish. If it squeaks, your dish is clean.

DISHES: Spray dishes as soon as practical. Rinse thoroughly and dry. Some people prefer to spray the Purely Green directly on a sponge, and then wipe dishes. Others prefer to add a tablespoon or so to a pan or sink of water and immerse dishware under water.

DISHWASHER (Automatic)

Since dishwashers vary so much, you will need to experiment and find the best "technique" for your dishwasher.

Scrape and rinse your dishes per normal. Then add one (1) teaspoon per well.

Run machine as usual. Add more or less of the solution to get your desired results. If too much is used, the machine may overflow with suds.

POTS & PANS: Pots and pans are easier to clean if rinsed, sprayed, and left to soak during your meal. As you empty a pot or pan, rinse and spray it. Let it dwell. You can wash it immediately with hot water or spray it and wait until later. For tough or caked grease, use Cleaner-Degreaser.

PET CARE: Purely Green leaves the fur soft and lustrous. It does not harm your pet if the pet licks itself.

CATS: Cats do not like water, so spray Purely Green on a soft cloth and stroke the cat with the cloth.

DOG SHAMPOO: Simply add ½ cup per gallon of bath water or spray it directly onto the wet pet. Lather and rinse thoroughly.

PET AREAS: Spray generously, let dwell and rinse.

VEHICLES & MOBILE HOMES

CARS, BOATS & BICYCLES:

CHROME: After removing bugs, buff dry.

AUTO EXTERIOR: Work on a cool surface. Spray with water, then buff dry with a clean, dry terrycloth while the surface is still wet.

PAINT OVERSPRAY: Professional auto painters advise that Purely Green is the only remedy they have found to remove overspray without damaging the rubber.

BICYCLES: Spray the fenders, frame, handlebars, then buff dry with a cloth. For greasy, gummy tire axles, rinse with a hose and spray on Purely Green. Dwell time: several minutes. Wipe or rinse away the grease with a hose.

BOATS: Cleans mild soil and watermarks. For tough stains and oil grime, use Purely Green. Buff dry.

To remove bait and fish odor, carbon, oil, diesel grime, bird droppings, mold, and scum from fiberglass and vinyl seats, spray liberally and rinse well. Dry with a soft cloth. Buff with a second cloth.

BRAKE DRUMS: Spray brake drums. Let it dwell for 5 minutes. Wash off.

TIRE & VINYL CLEANER AUTOMOBILE: (Includes bicycles, golf carts, motorcycles & trucks.)

TIRES & WHEEL HUBS: Spray Purely Green generously and let it dwell while you are washing the vehicle. When you return to the tires, agitate the solution with a stiff brush. Rinse off with water.

VINYL TOP: Spray on, allow dwell time and gently agitate with a soft wet brush or terry cloth towel. Wipe off. Buff dry.

WINDSHIELDS (auto): Mist lightly and buff dry. After cleaning, spray with water and buff dry again. This helps prevent headlight glare at night.

MOBILE / MOTOR HOME EXTERIOR: Rinse the exterior with water. Spray with Purely Green. Scrub those spots that are stubborn. Rinse with clean water. Use less of the solution in a power washer.

AS A DEAD BUG REMOVER:

BUG STAINS: On Auto Exterior- Spray with water, then with Purely Green. Dwell time: 2 minutes. Dried bugs will melt. Wipe them away with a wet cloth. **NOTE:** Do not leave Purely Green on too long. It may dull some finishes.

CHROME: To remove bugs, spray generously and let dwell 2 minutes. Wipe with a wet sponge or rag.

TAR. Tar is difficult. Soak the tar with hot water, then spray with WOW! and let dwell for 5 minutes. Wipe with a hot wet rag or rinse with a hose.

GREENSAFE™ DEEP CLEAN APPLICATION INSTRUCTIONS

BRICKS: Add one cup of Deep Clean per gallon of water. Rinse the area to be cleaned. Dip a stiff brush into solution and brush onto bricks. Rinse.

DECKS (Wood): Add one cup of Deep Clean per gallon of water. Rinse your deck. Scrub with a stiff brush. If using a pressure washer, use half as much Deep Clean

DRAINS PLUGGED: Pour 2 cups of concentrated Deep Clean into the drain. Let it dwell 10 to 20 minutes. Plunge with a Plumbers Helper. Repeat as needed. This will work for soap scum and grease. It will not dissolve hair or other large items. Regular usage of Purely Green solutions prevents grease, soap, and sludge build-up.

DIESEL STAINS: Wet with hot water and spray generously. Let it dwell several minutes and agitate with a brush. Diesel stains are tough. Repeat until stains are gone.

DRIVEWAYS / GARAGES FLOORS: Wet with hot water. Spray Deep Clean and let it dwell until oil is dissolved. Agitate with a stiff brush. Rinse. Repeat, if necessary.

ENGINES: Hose off the warm engine. Spray Deep Clean and let dwell until grease is dissolved. Agitate with a stiff brush. Rinse with strong water pressure.

FECAL MATTER: Health-conscious people are concerned with the hand washing habits of some of the public. Recent studies found significant fecal matter in public areas ranging from restrooms, bowling balls, theater seats, and shopping carts. To clean your hands, carry a small bottle of Deep Clean as a hand wash.

FENCING: To clean dirty fencing, hose with water. Dip a stiff brush into a mixture of 4 ounces Deep Clean to four gallons water. Rub briskly. Rinse. When using a pressure washer, reduce the amount of concentrate to ½.

GASOLINE: Spray generously with Deep Clean and agitate with a brush during dwell time. Rinse away.

GRILLS: Wet with hot water then spray generously with Deep Clean Let it dwell a few minutes until the grease is dissolved. Scrub with a stiff brush. Repeat, if necessary.

If the grill has been neglected, soak it in a mixture of Deep Clean and hot water until all grease is loosened.

MECHANICS HAND WASH: Deep Clean was named Deep Clean because that is what mechanics said after testing it to remove embedded grease from their pores.

OILY SPOTS: Spray with hot water, Deep Clean Let it dwell until the oil runs. Wipe with damp cloth.

PAINT BRUSHES: If stiff and dry; soak overnight in a strong solution. Agitate frequently. Rinse and let dry.

PAINT CLEAN-UP: While the paint is fresh, spray and wipe up with a clean rag. If on the carpet, do not rub. Pat it up.

PLASTIC BURNED ON: (Tough job) Spray Deep Clean and let dwell until it dissolves. Scrub with a Tuffly. Rinse. Repeat until you are satisfied.

PRINTING INK (Organic): Spray the area to be cleaned and let it dwell until the ink softens. Wipe with a damp cloth. Printers use either organic or inorganic ink. Purely Green products work on organic ink.

SEWER LINES: Regular use of Purely Green solutions in baths, laundry, and kitchen helps keep sewer lines free of soap and grease build up.

SEWER PLANTS: Regular use of Purely Green in the sewer lines keeps grease balls dissolved in the sewer plant. The pumps work with less friction and run smoother.

SOOT: Rinse away loose soot, then spray liberally. Allow ample dwell time then wipe with a big brush or broom.

TOBACCO/NICOTINE STAINS: To remove stains on walls, doors, tables, etc., spray directly on the stain. Wipe with a damp cloth. Hard surfaces: Spray generously, allow several minutes of dwell time, and then wipe off the yellowish stain with a wet rag.

VENTS: If removable, remove and spray with Deep Clean Let it dwell, then rinse with water.

Safety Data Sheet

GreenSafe™ Cleaners

SECTION 1 – PRODUCT AND COMPANY INFORMATION

Product

Name: GreenSafe™ - All Clean – Cleaner-Degreaser

Brand: GreenSafe™

Product Family: Plant Chemicals

Products Use: Products replace all harsh chemical cleaners.

Supplier Name

Green-Safe-Solutions LLC

Address: 3070 Orange Grove Trail – Naples – FL 34120

Telephone: Gary Reid - Florida 239.465-1890

Emergency Phone (800) 424-9300 CHEMTREC

Prepared/Revised: 17 Jul. 17

SECTION 2 – HAZARD IDENTIFICATION

Classification of the substance or mixture

Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements

Not a hazardous substance or mixture.

Hazards not otherwise classified or not covered by GHS

HMIS Rating: Health hazard: 0 Chronic Health Hazard:

Flammability: 0 Physical Hazard 0

NFPA Rating: Health hazard: 0 Fire Hazard: 0 Reactivity

Hazard: 0

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Substance There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

SECTION 4 – FIRST AID MEASURES

Description of first aid measures

General advice: Show this SDS to first responders and physicians. Product is not hazardous.

In case of eye contact: Immediately flush with large amounts of cool water. Remove contact lenses, if worn, while rinsing. If eye irritation occurs and persists, get medical advice/attention.

In case of skin (or hair) contact: Immediately wash contaminated skin with large amounts of soap and water. If skin irritation or a rash occurs: Get medical advice/attention.

If inhaled: Remove the person from exposure to fresh air and keep comfortable for breathing. Begin rescue breathing (using universal precautions) if breathing has stopped and CPR if heart action has stopped. If experiencing respiratory symptoms call a POISON CENTER/doctor.

If swallowed: Rinse mouth. Do not induce vomiting due to inhalation risk. Seek immediate medical attention if you feel unwell.

Most important symptoms and effects, both acute and delayed: None known.

Indication of any immediate medical attention and special treatment needed: Treat symptomatically.

SECTION 5 – FIREFIGHTING MEASURES

Extinguishing Media: Substance is not combustible.

Suitable Extinguishing Media: Not Applicable.

Unsuitable Extinguishing Media: Not Applicable.

Special hazards arising from the substance or mixture: None known.

Advice for firefighters: Product is not combustible. Advice applies to surrounding materials that may be combustible. Wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. (MSHA/NIOSH approved or equivalent).

Further information: If employees are expected to fight fires, training and equipment information can be found in OSHA Fire Brigades Standard (29 CFR 1910.156).

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures: Product is not hazardous. However, it is always advisable to be cautious handling any chemical. Avoid breathing mist/spray.

Environmental precautions: Prevent further leakage or spillage. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground. Product is not a pollutant requiring notification of spills.

Methods and materials for containment and cleaning up: Contain spilled material if possible. Product is not hazardous so no special disposal measures are required. Small spills: Absorb liquids in vermiculite, dry sand, earth, or a similar material. Vacuum dry chemicals to avoid creating dust. Never return spills to original containers for re-use. Use water spray to disperse vapors.

Large spills: Dike to contain liquids then recover with a wet vacuum.

Reference to other sections-resources: For additional information, refer to Section 8: Exposure Controls and Personal Protection, Section 7: Handling, Section 12: Ecological Information, Section 13: Disposal Considerations and OSHA Hazardous Waste Operations and Emergency Response Standard (29 CFR 1910.120).

SECTION 7 – HANDLING AND STORAGE

Precautions for safe handling: Product is not hazardous. However, it is always advisable to be cautious handling any chemical. Avoid breathing mist/spray. If exposed and you feel unwell, contact a physician.

Conditions for safe storage, including any incompatibilities: Keep container tightly closed in a dry and well-ventilated place. Avoid temperature extremes. Containers which are opened should be carefully resealed and kept upright to prevent leakage.

Specific end use: See Section 1.

SECTION 8 – EXPOSURE CONTROL AND PERSONAL PROTECTION

Control parameters: Under normal conditions of use, no special precautions or control measures are required. Guidelines may not apply to every situation. Industrial hygiene evaluations should be completed at each workplace. Exposure limits are for air levels only.

Component Workplace Exposure Limits: No OSHA – NIOSH – ACGIH exposure limits.

Exposure controls: Appropriate engineering controls: Where possible, enclose operations and use local exhaust ventilation at the site of chemical release. Wear protective work clothing.

Personal protective equipment: Safety glasses and chemical resistant gloves are not required for this product but are recommended whenever chemicals are handled. Obtain detailed information from OSHA Personal Protective Equipment Standard (29 CFR 1910.132) and equipment suppliers.

Eye/face protection: Safety glasses are not required but are recommended. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection: protective gloves/protective clothing. Wash and dry hands after use.

Respiratory protection: Not normally required. Improper use of respirators is dangerous. Respirators should only be used with a written program as described in the OSHA Respiratory Protection Standard (29 CFR 1910.134).

Control of environmental exposure: Avoid release to the environment. Collect spillage. Dispose of contents/container in accordance with regulations.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance Form: Liquid

Color: Clear to Opaque

Odor: Faint

Odor Threshold: Not Determined

pH: 9.2

Melting point/freezing point: Not Determined / 28°F

Initial boiling point/boiling range: >212°F / ND

Flash point: Non-Combustible

Evaporation rate: Not Determined

Other safety information VOC: NA

Physical Data is typical values based on material tested but may vary based on composition. Values should not be accepted as guaranteed for every lot or as specifications for this product.

SECTION 10 - STABILITY AND REACTIVITY

Reactivity: Not reactive under normal conditions.

Chemical stability: Stable under recommended storage conditions.

Possibility of hazardous reactions: None known.

Conditions to avoid: Avoid excessive heat or cold.

Incompatible materials: Strong oxidizing agents.

Hazardous decomposition products: Does not decompose under normal conditions.

a carcinogen by the National Toxicology Program (NTP), the International Agency for Research on Cancer (IARC), or the Occupational Safety and Health Administration (OSHA).

Additional Information: None known.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity

Component ecotoxicity: None known.

Mixture ecotoxicity: Toxicity to Fish - Persistence and Biodegradability - Bioaccumulative Potential - Mobility in Soil: Not toxic.

Other adverse effects: None known.

SECTION 14 - TRANSPORT INFORMATION

DOT: Not Regulated - IATA: Not Regulated - IMDG: Not Regulated

SECTION 15 - REGULATORY INFORMATION

Federal

TSCA: Components of this product are listed on the TSCA Inventory.

RCRA: None of the ingredients are currently listed as a substance or a source waste under current RCRA regulations (40 CFR 261.31, 32 and 33).

CERCLA: Product is not found on Table 302.4, 40 CFR part 302.

SARA TITLE III: (Superfund Amendments and Reauthorization Act)

Section 301-303 Components (Emergency Planning): No EHS/TPQ components.

Section 304 Components (Emergency Release Notification): No components with release minimum RQ.

Section 311/312 Hazards: None

Section 313 Components: None that exceed the threshold (De Minimis) reporting levels established by Section 313.

States

State Right to Know Components: None use the product.

Flammability: Not Applicable

Upper/lower flammability or explosive limits: NA

Vapor pressure: Same as Water

Vapor density: Heavier Than Air

Relative density: Not Determined

Specific gravity: 1.001

Water solubility: Complete

Partition coefficient: n-octanol/water: ND

Auto-ignition temperature: Not Determined

Decomposition temperature: Not Determined

Viscosity: Not Determined

Explosive properties: Not Applicable

Oxidizing properties: Not Determined

Other decomposition products: None known.

SECTION 11 - TOXICOLOGICAL INFORMATION

Information on Toxicological Effects

Component toxicity: Not toxic.

Mixture toxicity: Inhalation - Dermal - Skin corrosion/irritation - Eye damage/eye irritation - Respiratory/skin sensitization - Germ cell mutagenicity - Reproductive toxicity - Specific target organ toxicity - single exposure - Specific target organ toxicity - repeated exposure - Aspiration hazard: All not applicable. - Carcinogenicity: Not a carcinogen. No component of this product present at levels greater than or equal to 0.1% is classified as

SECTION 13 - DISPOSAL CONSIDERATION

Waste treatment methods: See Section 15 for ingredients listed under current RCRA regulations (40 CFR 261.31, 32 and 33), Comprehensive Environmental Response, Compensation (CERCLA) Table 302.4, 40 CFR part 302, and SARA TITLE III: (Superfund Amendments and Reauthorization Act) Sections 301-313.

Product: Not special procedures required to dispose of this material.

Contaminated packaging: Empty containers should be disposed of responsibly. No special procedures are required.

California Prop. 65 Components: This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Canada

DSL: This product, or its components, are listed on or are exempt from the Canadian Domestic Substances List.

WHMIS: Uncontrolled product according to classification criteria.

SECTION 16 - OTHER INFORMATION

Disclaimer: The information contained herein is offered only as a guide to the handling of these specific products. Since such information does not relate to use of these products with any other products or in processes, any person using this information must determine for himself its suitability for any application. The buyer and user assume all risk and liability of use, storage and/or handling of these products not in accordance with the terms of the product labels. Manufacturer makes no Warranties of any kind, express or implied with respect to this product. Green Safe Solutions, LLC obligations are limited to replacement of product for defective material only. Manufacturer shall not be liable for any injury, loss or damage directly or consequently arising from the misuse or inability to
