

# Purely Green Bio-Pesticide

## Super Concentrate and Ready to Spray

Purely Green Biopesticide Super Concentrate and Ready to Spray are broad-spectrum contact and systemic bactericide, fungicide, and insecticide. The products are exempt from EPA (FIFRA 25b) as a minimum risk pesticide. Refer to Table 2 for the States permitting sale and use. They replace hazardous synthetic chemicals. Purely Green can be used on all crops, turf, ornamentals, pets, livestock and in and around structures. Pest control is essential to protect food supplies, people, animals, and property. However, synthetic pesticides are hazardous for shipping, storage, and application. Once used, their residuals are a risk to people, animals, beneficial insects, and the environment. Purely Green Bio-Pesticide meets the essential need for control without risk from handling, residuals, and pollution. Processed plant and oil seed extracts known to be beneficial for millennium are combined into colloidal micelles using a modern proprietary process blending them at specific time intervals, temperatures and sequences resulting in our breakthrough product system. Purely Green Bio-Pesticide is not a poison. It dissolves harmful insect protective coating (“chitin”). Wings and legs cannot move. The insect has no defense. No immunity is possible. Purely Green Bio-Pesticide complies with EPA regulatory requirements because it is exempt from registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) as a minimum risk pesticide. Table 2 lists the States where it is approved for sale and use.

### Cost - Value

**General:** The 1-gallon price for Super Concentrate is \$45.00. It is diluted for use at 3-ounces or \$1.05 per gallon. Each application will cost <\$2.00 per acre. Costs will be lower per acre depending upon product concentration and quantity purchased. Growers report synthetic pesticide costs from \$50 to \$70 per acre. (Source: <https://farmdocdaily.illinois.edu/>)

### Application

**Farm and Garden Pests:** Spray top and bottom of leaves, limbs and stem until all targets are wet. Drench the soil and roots well enough to reach all targets. Repeat promptly before newly hatched eggs can reach reproductive stage. Drench roots monthly for uptake into sap and leaves for insect ingestion.

**Trees (Fruit, Nut & Berry):** Spray leaves, limbs, and trunks. Soak roots until drenched. Apply as a plant spray and soil drench whenever insects or pests are present.

**Livestock and Pets:** Mist stalls or spray livestock generously. Spray or shampoo pets. Product can be left to dry on animals or rinsed with clean water.

**Flying & Crawling Insects:** Mist or spray generously on flies, mosquitos, no-see-ums, roaches, wasps, etc. Spray wasp nests. Soak ant beds, reaching the queen.

**Post-Harvest Preservation:** Wash produce and cut flowers with a Purely Green solution to extend freshness, marketability and/or edibility up to 5 days. Spray or dip produce in solution to remove residual chemicals or surface dirt. Rinse thoroughly before consumption.

### Ingredients and Handling

Ingredient	Percentage
Soybean Oil	1.63%
Cinnamon Oil	0.57%
Lemongrass Oil	0.57%
Garlic Oil	0.93%
Peppermint Oil	0.007%
Water and Soap	96.29%
<b>Total</b>	<b>100%</b>

All-natural processed extracts of natural plants and soap (Table 1)

Purely Green Bio-Pesticide is non-hazardous and biodegradable. Neither personal protective equipment and or special disposal are required. Water wash away overspray. Store in a dry place away from temperature extremes. Shelf life is 3-years.
