Paradigm Shift

Merriam-Webster defines a paradigm shift as when the usual way of thinking about or doing something is replaced by different, formerly unknown way. CIMR® and GreenSafe™ products and their application are a paradigm shift.

CIMR® Tech and GreenSafe™

Products bring a paradigm shift to cleaning, pest control, sanitizing and growing. Breakthrough technology is applied to proven ingredients transforming them into submicroscopic polarized actives attracted to polarized nutrients and pathogens. Significantly improved results come at lower costs. Products keep the promises of synthetics without the pitfalls. Brands are high performance, non-hazardous, best cost sanitizers, hygienic cleaners, growing media fertility boosters, bio-pesticides, and nutrient enhancers. Products cost less and work better while breaking the cycle of contamination, infection, and pollution. All-natural 100% biodegradable products are safe for people, plants pets and the environment. They break the cycle of contamination, infection and pollution.

The GreenSafe™ System

- Ø Replace Toxic Chemicals
- Ø Reduce Waste
- Ø Recycle Nutrients

Replace

Products

- Ø CIMR® Technology
- Ø CIMR® Biopesticide

Experience the Value of Our Solutions.

20+ Years of applications and scientific proofs of the best outcomes:

GreenSafe SoilClean™ removes contaminants and cures bound up soil so roots can take up trapped nutrients. Soil percolation improves for earlier land access. Yields and quality improve.

VRM Biologik® Soil Amendment reduces nutrient and water needs when it restores healthy soil that retains them throughout harvest cycles.

CIMR® Technology Sanitizer, Bio-Pesticide and Hygienic Cleaner replace harmful synthetic chemicals with all-natural products that work on the molecular level for improved performance and lower costs without hazards.

GreenSafe™ Nutrient Enhancers reduce chemical use while increasing yields and improving performance. Essential NPK is dramatically reduced below environment risk levels. All are 100% biodegradable, require no special handling and are toxin free.

Click Replace, Reduce and Recycle tabs and their pull-downs to find CIMR® and GreenSafe™ program details in product sheets, field test reports and user success stories.
