

CIMR® P350

DIMENSIONS

Unit: 14.25 L x 2.12 H x 2.5 D inches
36.20 L x 5.40H x 6.35 D cm

Weight: 1.95 lbs.
0.88 kg

SPECIFICATIONS

Electrical: 12 Volts DC; 0.8A/Negative ground
Mechanical: Distribution via air handler
Coverage: Up to 350 square foot/31 square meters
Please note: Square foot/meters capacity and sizing is based on occupant density and other factors.

FACILITIES AND APPLICATIONS

- Ventilators, trains, busses, residential vehicles, vans, and taxis.

ABILITIES

Independently tested by multiple labs. Inactivates Pathogens such as Viruses, Bacteria, and Fungi such as: Bacillus Subtilis (Common infections), Candida Albicans (Fungi: Thrush and Yeast infections), Escherichia Coli (E-Coli), H5N8 Virus (Influenza A or Bird Flu), Influenzas (General Flu), Listeria Monocytogenes (Listeriosis), Methicillin Resistant Staphylococcus Aureus (MRSA), Norovirus (Common food poisoning - "Stomach bug"), Pseudomonas aeruginosa (Pneumonia), SARS-CoV-2 (COVID-19), Streptococcus Lactis (Infective Endocarditis or IE), and various types of molds.

The CIMR® P350 is designed to be installed inside the air duct of a transport vehicle and is an excellent air and surface sanitization unit in the CIMR® range of equipment.

It is manufactured from military-grade stainless steel.

CIMR®'s Air Infusion Technology is designed specifically to kill airborne and surface pathogens.

CIMR® is an ultra-low level, safe and effective Hydrogen Peroxide-based air and surface disinfectant system that produces zero ozone.

Hydrogen Peroxide (water and oxygen) actively targets and deactivates both aerosolized and surface pathogens in enclosed spaces.

CIMR® produces 0.02 ppm (parts per million) of Hydrogen Peroxide at 1/50th of OSHA (Occupational Safety and Health and Administration) limits.

Provides 24/7 protection.

Eliminates
up to 99.999%
of all pathogens such
as viruses, bacteria,
fungi, mold and
their odors

WARRANTY
Equipment:
3 years
CIMR® cells:
1 year
